

Blaenau Gwent
December 2024

Dear Commissioners,

When I heard there was to be boundary changes I thought we would see the return of Gwent County Council but it turns out you are just giving this assembly even more power to make a mess. Have you notice the state of our health service in Wales. You are helping to create even more of the people creating this mess. Someone needs to look into some of the very dodgy deals done on Cardiff bay. This will do nothing for the people of Wales we will just see more snouts in the trough. I bet none of you live in the valleys. Nothing is being done for us. We read it will cost Millions for these extra Members while we will see no change. We need Gwent C.C. back. The former parts of Gwent are now some of the poorest in Britain and you have now helped us to become even poorer. What's your next project I wonder. Will it be something to take even more away from us.
