Merthyr Tydfil

Dear Sir or Madam,

You have the word 'Democracy' in your title but where is the democracy in having 36 more assembly members we have not asked for or voted for. Who is acctually giving you orders. My area is dying and we need to be a part of a larger authority yet nothing is done about that. You appear to be the enemies of the ordinary people. What you have proposed will do nothing for us. I think there should be an enquiry into whats happening. Its been several years now since it was recommended that Wales would be better off with just 8 or 10 County Councils instead of the 22 unitary authorities imposed on us by Westminster in 1996. Its happening in England and authorities are being merged into County Councils. Why does the same law not apply to us. My area is rapidly turning into a tip. Its completely run down. It did not used to be like that when we were a part of Mid-Glamorgan. I would like to see an enquiry into exactly whats going on in Wales and who is giving the orders.
